# WEforUS :: A community

### Asokan Pichai

### November 2023

# 1   Preamble

The WE program is on the verge of launching the sixth cohort. Given the demographics of the early cohorts, this means that the seniors most alumni are earning their first promotions, while the next senior-most are in the first few months of their careers.

A hallmark of all the five cohorts has been the strong bonds and sense of community that prevails within cohorts. The members talk about it from the first month onwards. This comraderie is cemented during bootcamps and projects and continues to be of immense support to them during the highs and the lows.

TalentSprint believes that fostering, nurturing and deepening the community will be of immense value to the members at every step of their life. Starting from mentorship during the program, getting help and tips about interviews, spreading the news about opportunities. . . there is a wise range of very useful and impactful areas for the community to lift itself.

Towards this end we want to build and operate a community portal for WE

# 2   Draft specifications

## 2.1   Audience

This portal is meant only for embers of the WE community, namely

- current cohort members

- graduates and

- faculty and mentors from TalentSprint.

However, one single page and an announcement page will be open to public. All other pages must be for authorised members only.

## 2.2   Usecase 1:: Hall of fame

A photo gallery of achievements of alumni. Promotions, awards, recognitions...

## 2.3   Usecase 2:: Whos Who

An yearwise photo gallery of all alumni (and students) leading to an individual page with their professional history. Searchable–should be able to view all Googlers, all currently in Delhi ...

## 2.4   Usecase 3:: Reaching out

Any alum must be able to send out a message asking for help/details/opinions. The message can be set to one-to-one, one-to-many or to-all.

## 2.5   Usecase 4:: Meetup

Members should be able to organize social group events in their locations. Also members travelling to different towns sould be able to announce the same and setup meets, setup their visit calendars...

## 2.6   Usecase 5:: Announcements

Members should be able to post general announcements

## 2.7   Usecase 6:: Jobboard

Members should be able to post details of openings in their organizations, in their area...
